

Loh Qi Sheng

Web Development

I have over three years of self-learning experience in programming, skilled at debugging and problem-solving. I adapt quickly to new technologies, enjoy taking on challenges, and actively support teamwork. Passionate about creative and technical projects, I aim to blend logic with innovation in my work.

Project Experience & Contribution

1) Job Recruitment System (ASP.NET MVC/JS/HTML/CSS/JSON)

Implemented employer-employee matching and CRUD logic independently.

2) Online Shopping System (PHP/JS/HTML/CSS/JSON)

Developed cart, order, and admin modules with responsive UI.

3) CRUD Learning Project (ASP.NET Core Web API/React/TypeScript)

Integrate React and ASP.NET through API to achieve simple CRUD.

↑ Most of the above projects were completed by me alone

4) Additional Projects

4 playable Unity game demos, video editing works, and original music compositions.
